

Parliamentary Select Committee Visits Takoradi Thermal Power Station

The Parliamentary Select Committee on Energy has conducted a one-day visit to the Takoradi Thermal Power Station in the Western Region to gain firsthand insight into the Volta River Authority's (VRA) power generating operations.

Led by its Chairman, Mr. Emmanuel Kwasi Bedzrah, the visit forms part of the committee's oversight responsibility in the energy sector. The committee members used the opportunity to appraise themselves of the operations and other activities of VRA and the repowering of the T3 project.

The Chief Executive of VRA Mr. Edward E. Obeng-Kenzo briefed members of the committee on the progress made on the T3 repowering project and other thermal plant expansion projects in VRA's generation portfolio.

He assured the select committee of the Authority's unwavering commitment to its time-tested maintenance culture to ensure that the VRA's generation assets remain available,

in good condition and efficiently managed to deliver reliable electricity for domestic and industrial consumption.

The committee also had a tour of the Takoradi Thermal Power Station and witnessed first hand the maintenance works underway and the progress of work on the T3 Repowering project.

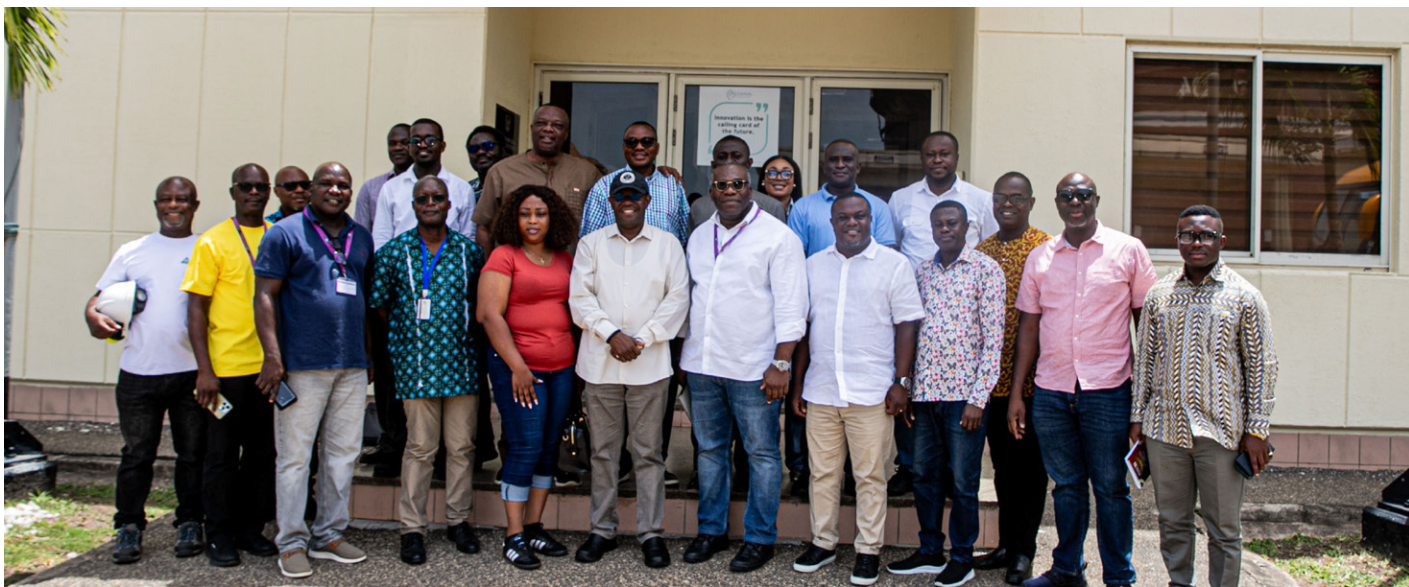

Hon. Emmanuel Kwesi Bedzrah, chairman of Parliament's Select Committee on Energy, makes a remark during the committee's visit to the VRA Takoradi Power Plant.
